

PRATHAM BHATIA

AI Application Engineer

Gurugram, India • prathambhatia2512@gmail.com • linkedin.com/in/pratham-bhatia-2512pb • github.com/Pratham-2512

PROFESSIONAL SUMMARY

AI Application Engineer building production-ready AI applications, enterprise software, and intelligent workflow automation. Currently at V2 Retail Ltd. (NSE-listed retail company, 100+ stores), delivering AI-enabled enterprise modules across business development, supply chain, marketing, and supplier management operations. Skilled in React, TypeScript, Supabase, PostgreSQL, and LLM integration (OpenAI, Claude, Gemini) with a focus on automating real business workflows in production environments.

EXPERIENCE

V2 Retail Ltd. — AI Application Engineer

Gurugram, India | Dec 2025 – Present

Enterprise Software • Full-Stack Development • AI Integration

- Built AI-enabled enterprise applications across 4 production modules: BD/NSO operations, Supply Chain Management, Marketing operations, and Supplier Relationship Management.
- Developed intelligent dashboards with KPI reporting, advanced analytics, and dynamic filtering used daily by internal business teams.
- Designed AI-assisted approval workflows and business process automation, replacing manual, email-chain-based approval processes.
- Integrated LLM-powered features (OpenAI, Claude, Gemini) using prompt engineering to improve productivity and operational efficiency.
- Built full-stack applications with React, TypeScript, Supabase, PostgreSQL, SQL, and REST APIs; optimized reporting, data synchronization, and exports.
- Diagnosed production issues, performed regression testing, and improved application reliability for business-critical workflows.

Arclic — AI/ML Intern

Remote | Mar 2025 – Jun 2025

- Developed and refined machine learning models and conducted dataset analysis for internal tooling.
- Improved system performance and accuracy through data optimization; collaborated with senior engineers on data-driven solutions.

PROJECTS

Enterprise Projects — V2 Retail Ltd. — React, TypeScript, Supabase, PostgreSQL, AI/LLMs

Confidential | Production

- BD / NSO Automation:** workflow management, routing systems, approval processes, KPI dashboards, Master Trackers, and operational reporting for business development teams.
- SCM Automation:** purchase order workflows, approval automation, vendor coordination, dashboards, and reporting.
- Marketing Automation:** NSO Branding, BTL Tracker, Master Tracker, Gap Reports, and campaign tracking dashboards.
- SRM Automation (current):** vendor lifecycle management, approval workflows, enterprise dashboards, and AI-assisted business processes.

AI Resume Tracker — Next.js, OpenAI, Supabase, Vector Search

github.com/Pratham-2512/AI_RESUME_TRACKER

- Built an AI-powered resume screening system that parses, ranks, and matches resumes against job descriptions using LLM-based semantic search — reducing manual screening from minutes per resume to seconds.
- Solved prompt consistency and structured-output challenges; delivered a recruiter-facing ranked candidate dashboard.

Yaatra Mobility — React, TypeScript, REST APIs, Maps

github.com/Pratham-2512/yaatra-frontend

- Developed a full-stack mobility booking platform with authentication, live maps, and an end-to-end booking flow (auth → search → book → track) with a responsive, mobile-first UI.

SKILLS

Languages: JavaScript, TypeScript, Python, SQL

AI: OpenAI, Claude, Gemini, Prompt Engineering, LLM Integration, AI APIs

Frontend: React, Next.js, Tailwind CSS

Backend: Node.js, Express.js, Supabase, PostgreSQL, REST APIs

Data & Analytics: Power BI, Excel, Pandas, NumPy

Tools: Git, GitHub, Vercel

EDUCATION

Bachelor of Computer Applications (BCA)

2023 – 2026

GRD Institute of Management and Technology, Dehradun (Sri Dev Suman Uttarakhand University)
